Harvesting Healthier Food: Safe Food Handling Practices for Hmong Farmers

Hli Xyooj, Staff Attorney (JD, MBA), Farmers' Legal Action Group, Inc. (FLAG),

Ly Vang, Executive Director, Association for the Advancement of Hmong Women in Minnesota (AAHWM)

Michele Schermann (RN, MS), Agricultural Health and Safety Research Fellow, Bioproducts & Biosystems Engineering Department, University of Minnesota

Annalisa Hultberg (MS), Research Fellow, Bioproducts & Biosystems Engineering Department, University of Minnesota

Palee Yang, Research Assistant, Bioproducts & Biosystems Engineering Department, University of Minnesota (and AAWWM)

Chianeng Thao, Farmer Coordinator, Advancement of Hmong Women in Minnesota (AAHWM)
Project Overview

• Timeline – September 2011 – September 2012

• The project **goal** was to increase food safety practice and knowledge for Hmong farmers in the Twin Cities region.

• **Activities** included a series of in-depth food safety training for six Hmong farmers, who then introduced safe food handling practices to other Hmong American farmers in the Twin Cities metro region.
Classroom

Six classroom sessions to teach and demonstrate on-farm food safety practices.
Visit to Minnesota Food Association training farm to learn about washing and cooling systems for food safety.
Handwashing Station Demonstration

At the 7th Annual Immigrant and Minority Farmers’ Conference. Farmers staffed the educational table for two days.
Peer Training at UROC

Demonstrating how to use sanitizer in produce wash water. Farmer-led trainings for other farmers; over 30 attended.
Peer training at UROC

Teaching proper handwashing technique and how to use the portable handwashing station.
Workshop

Building Handwashing stations for all project participants and friends.
Graduation Ceremony
Educational Materials Created

• Farmer advisors chose topics and format.
• **Safe Food Handling: Harvesting Healthier Food** manual (with pictures)
• **On-farm Food Safety Reminders** poster (with pictures)
• Guide to using sanitizers in water.
• Video footage on how to build handwashing station.
University Community Collaboration

What worked?

**Development of sustained networks** of Hmong farmers to share information and best practices.

**Intangible outcomes:** supported, encouraged, empowered Hmong farmers, particularly women farmers.
