Community Bees on Bikes

- **Beez Kneez Mission:**
  - Revive the Hive!
  - Providing education and raising awareness of the vital role honey bees and other pollinators play in our food system
  - Maintaining honey bee hives in Twin Cities community gardens, parks, schools and urban farms
  - Delivering local, raw, honey to the sweet people of Minneapolis and St. Paul by bicycle
Eco Education supports young people and educators through innovative, culturally-relevant programs that empower young people to improve the health of the environment and their communities.

Next steps

www.kickstarter.com search The Beez Kneez
Other resources for Beekeeping support

- Community Bees on Bikes establishes teaching apiaries in public spaces, like schools. Contact Erin if you’re interested: erin@thebeezkneezdelivery.com, www.communitybeesonbikes.org

- The U of M Bee Lab
  - Interested in becoming a beekeeper? Take the UofM short course: http://www.beelab.umn.edu/Education/Public_Courses/index.htm
  - Interested in having a hive in your yard?
    - The UofM Bee Squad, which Abbie mentioned in her Project Honey Bee presentation, is the Bee Lab’s outreach program. They establish hives in private spaces- like your backyard! http://www.beelab.umn.edu/BeeSquad/index.htm
    - They also provide beekeeper mentorship and support.
  - Long term, CBB will be developing curriculum on how to keep your hives as teaching hives and offer our services as consultants. We’ll keep you posted.....
