The Great Tomato Countdown

3, 2, 1... Tomatoes!

This popular crop tops the list for home gardeners. How to grow your fill of sun-warmed, juice-squirting, chin-dripping tomatoes? Keep in mind three basic things a healthy tomato plant needs.

Think Like a Plant

These three add up to “plant heaven”, and the gardener’s formula for a bumper crop.

Bright Sun: to fuel plant growth.

Loose, Fertile Soil: to let roots spread wide and drink in water and minerals.

Consistent Soil Moisture: to keep plants growing vigorously.
